SUMMARY

IT student with a background as a Branch Manager and entrepreneur within the automotive industry. I am looking to combine my experience in operations and problem-solving with my studies in software development. I am currently seeking an internship (LIA) where I can grow professionally and deepen my technical skills within a professional environment.

Agile methods (Scrum) | CI/CD

UX & availability

Business Economics

2017 - 2020

Hersby Gymnasium - Highschool diploma

PROJECTS

Organizer & Event Coordinator

Dec 2025 - Ongoing

Chas Hack - Hackathons for Chas Academy

- Working together with other students at Chas Academy to organize and host monthly hackathons across various themes, promoting innovation, development and collaboration among the school's students.

Team Leader & Fullstack developer

Dec 2025 - Ongoing

MILTON - AI Documentation tool - Hackathon 1st place

- Together with 4 other team members, we developed an AI-powered documentation generator capable of documenting source code across entire GitHub and JIRA projects, while complying with strict military standards in accordance with MIL-STD-498.
- Worked closely with the AI & Digital Transformation Manager at SAAB, who provided the assignment and coached us throughout the project.
- The project is still ongoing after the hackathon, with plans for further development in the future.

Developer

Nov 2025

Carbon Shift - Carbon Footprint Dashboard - Hackathon 1st place

- Together with a team of four, we developed a Grafana dashboard that helps companies monitor the energy consumption of their cloud instances and the associated carbon emissions.
- The dashboard analyzes the data and provides recommendations on which country to relocate cloud instances to in order to maximize cost efficiency while reducing carbon emissions.
- Carbon emission data is retrieved via a public API that tracks country-level emissions in real time.

WORK EXPERIENCE

Co-Founder

Mar 2024 - Dec 2025

Busselmann Bil AB

- Startup & operations: Established the company structure from the ground up and managed daily business operations.
- Administration and finance: Independently managed bookkeeping, financial accounting, and customer service.
- Digital tools: Managed the systems and platforms required for the digital sales process.

Branch Manager

Sep 2024 - Sep 2025

Sixt Rent a Car / S.Bil Stockholm AB

- Operational oversight: Responsible for daily operations, results, staffing, and scheduling across two rental locations.
- Planning & optimization: Optimized rental fleet to ensure maximum occupancy rates and high customer satisfaction.
- Financial management: Managed sales and cost control in accordance with budget targets and financial goals.

Rental Car Sales Agent

Nov 2020 - Sep 2024

Sixt Rent a Car / S.Bil Stockholm AB

- Sales and advisory: Matched customer needs with appropriate vehicle solutions and supplementary services.
- Systems administration: Managed bookings, contracts, and fleet data within the company's business systems, maintaining high standards of data integrity and accuracy.

Personal Technician

Apr 2019 - Dec 2019

TechBuddy

- Technical support: Performed hardware and software troubleshooting and installations on-site for private customers.
- Communication and advisory: Responsible for explaining complex technical solutions for non-technical users.
